**Global Projects & Services Provider for
Energy & Chemical Industries**

**OIL & GAS
PRODUCTION**

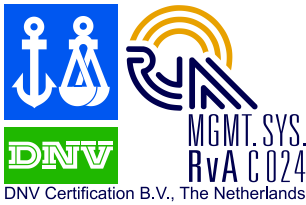

CUTTING EDGE SOLUTIONS

BACKGROUND

Pyramid E & C is the Turnkey EPC (Engineering, Procurement and Construction) business unit of Pyramid Group founded in 1995. The group seamlessly offers concept to commissioning services in Energy and Chemical Industries worldwide through its various global locations.

Pyramid has internalised most aspects of EPC business and thus adds significant value to the projects it undertakes. The group has its own Engineering, Project Management and Fabrication facilities.

Pyramid is a qualified supplier of Engineering services and Process systems under Achilles Joint Qualification System for North Sea. The Quality Management System conforms to ISO-9001-2008

PROJECT MANAGEMENT SYSTEM

Pyramid strives for excellence in the execution of all its projects with Safety, Quality, Time and Cost as the prime parameters.

Pyramid utilizes state-of-the-art IT infrastructure to coordinate engineering, procurement and construction in a global scenario.

Primavera® project management tool is effectively utilized across all the projects for planning and scheduling. All critical business processes are mapped and integrated through SAP® ERP. Project Management tools and IT infrastructure are configured for global operation and maximum productivity. Document management is a vital area for which Kronodoc® Electronic Documentation Management System is deployed.

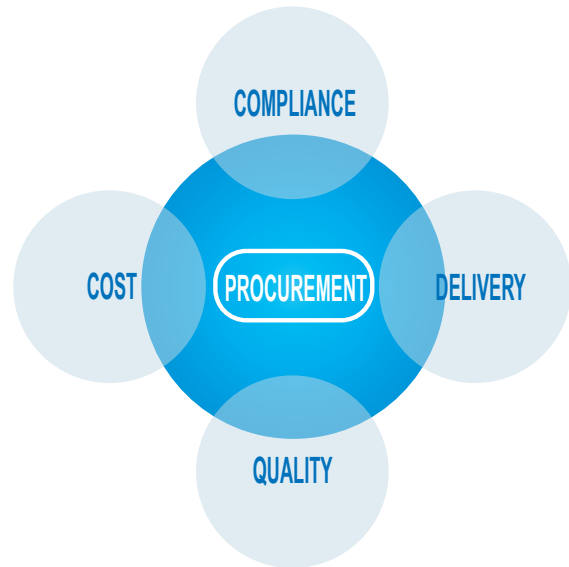

ENGINEERING

Pyramid E&C has core competence in process engineering and has comprehensive multidiscipline in house engineering capability. The engineering capabilities extend from concept to commissioning i.e. ..

- Conceptual Studies
- Process Engineering
- Front End Engineering & Design
- Multidiscipline Detailed Engineering
- 3D Modeling
- Computerized Material Management

PROCUREMENT

Pyramid has an established global procurement centers to ensure that materials are sourced and inspected from appropriate vendors.

E-Procurement : Pyramid has an efficient system to electronically register vendor and initiate pre-qualification process with minimal paperwork. Reliability, Confidentiality and Security of data is of highest order. The data is updated at periodic intervals.

CONSTRUCTION

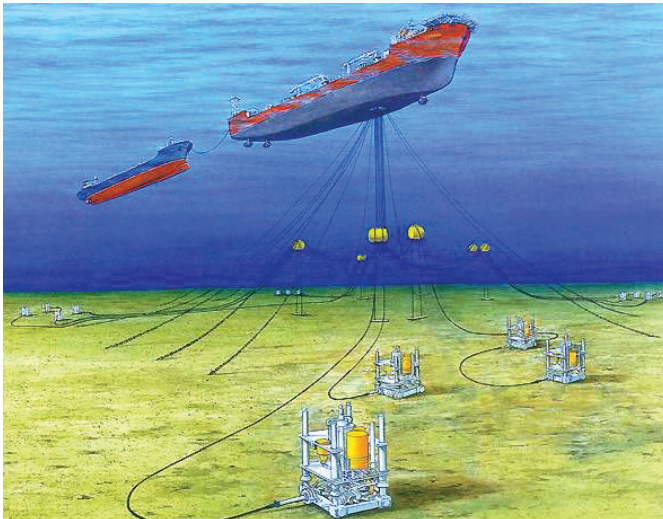

Pyramid carries site construction by using a core team of supervisors and qualified local construction firms. All construction activities are controlled by Pyramid's multidiscipline construction management team.

Pyramid is having its own Modular Fabrication Yard of 20,000 m² area at Mundra, Gujarat, India. This facility is capable of delivering process modules upto 750 Tons and has access to jetty.

OFFSHORE FIELD DEVELOPMENT

Pyramid E&C provides engineering and project management services for offshore field development with consortium partners. The services are comprehensive in nature and comprise of topside process plant, floater hull and subsea systems (SURF).

FLOATING PRODUCTION SYSTEMS

Pyramid E&C provides turnkey EPC solutions for FPSO topsides. With own design, procurement and fabrication facilities, it is possible for us to provide high quality and low cost projects, while meeting challenging deadlines.

Mini LNG

Pyramid E&C provides mini LNG systems for Re-gasification as well as Re-liquefaction. These systems are ideal for remote and unmanned installations. The LNG system can be stick built, modular or truck mounted.

PROCESS EQUIPMENT & MODULES

Pyramid E&C supplies entire range of Oil & Gas Production modules. Pyramid has a very competent team of process engineers and access to latest separation and treatment technology, thus able to provide cutting edge solutions. The modules are engineered and manufactured in its own fabrication facility, hence offering high performance and low cost projects.

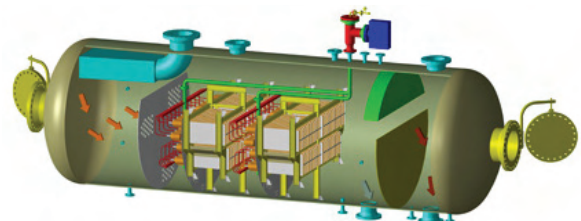

Process Module Portfolio

- Oil & Gas Separation Systems
- Gas Dehydration Systems
- Produced Water Treatment System
- Gas Conditioning System
- Amine Sweetening System
- Chemical Injection Skids
- Desalters and Dehydrators
- Flare Skids

HIGH EFFICIENCY SEPARATION

Pyramid E&C, in cooperation with Hamworthy Technology & Products, Norway delivers the cutting edge separation solution for heavy emulsified crude processing using VIEC®.

VIEC® (Vessel Internal Electrostatic Coalescer) is the patented product from Hamworthy which can be installed in first separation stage. VIEC® benefits include reduced capital cost, operating cost, chemical usage and space requirement.
